#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 02 July 2007.
- 2a) This action is FINAL.                    2b) This action is non-final.

1. The response to the restriction requirement filed 07/02/2007 has been received and entered by the examiner in which claims 40-51 have been withdrawn from consideration and claims 1-39 are presenting for examination.
2. Claims 1-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

2.1. The claimed language is indefinite and unclear.

As per claim 1, it is unclear how would the wired communication means would transmit and receive data between mounted host equipment (transmit and receive data between the host itself), see lines 2-3. Also, it is unclear which communication network (lines 8, 9-10, 12) the claim is referring to (is it the external communication network or the short distance wireless communication network).

As per claim 19, it is unclear how would the wired communication means would transmit and receive data between mounted host equipment (transmit and receive data between the host itself), see lines 2-3. Also, it is unclear which communication network (lines 8-10) the claim is referring to (is it the external communication network or the short distance wireless communication network).

As per claim 22, it is unclear which communication network (line 8) the claim is referring to (is it the external communication network or the short distance wireless communication network). Also, the last phrase "whereby and transmit-receiving data between said network server and said host equipment" appears incomplete.

3. Claim 22 recites the limitation "said short-distance wireless communication network" in line 3. There is insufficient antecedent basis for this limitation in the claim.
4. The language of the claims is unclear and indefinite to show the claimed invention and the examiner is unable to conduct a search to find the related art.
5. The applicant is advised to amend the claims thoroughly to show the claim invention.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Moustafa M. Meky whose telephone number is 571-272-4005.

The examiner can normally be reached on flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ario Etienne can be reached on 571-272-4001. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
